

**Sea-Taxi** is a proven, dependable RIB (rigid inflatable boat), which is a rugged, reliable, vessel that is stable and reassuringly safe.

**Sea-Taxi** can come alongside jetties and other water craft without risk of damage.

**Sea-Taxi** uses a planing hull, designed to operate at speeds from 0-40 knots. Wheel or joystick controls provide excellent manoeuvrability.

The sea-taxis are a brand name of Yellowjet water taxis built at the same facility

Seating places your passengers with wide-open views! The roof protects passengers from sun and rain. Roll down clear sides give added weather protection when needed.

The competitive low capital cost of the sea-taxi offers potential for good economic returns, from both fare paying passengers and advertising opportunities.

**Sea-Taxi** is available as 7.5 m.

**The sea-taxi** can be operated by one person, reducing crew costs.

From £42,500 + VAT for the 7.5 m with 150 hp Yamaha 4 stroke outboard engine
