

# YellowJet-Taxi

**YellowJet-Taxi** is a proven, dependable RIB (rigid inflatable boat), which is a rugged, reliable, vessel that is stable and reassuringly safe.

**YellowJet-Taxi** can come alongside jetties and other water craft without risk of damage.

**YellowJet-Taxi** uses a planing hull, designed to operate at speeds from 0-40 knots. Wheel or joystick controls provide excellent manoeuvrability.

**YellowJet-Taxi** uses VW TDi Marine engines mated to water jet propulsion

Seating places your passengers with wide-open views! The roof protects passengers from sun and rain. Roll down clear sides give added weather protection when needed.

The competitive low capital cost of the **YellowJet-Taxi** offers potential for good economic returns, from both fare paying passengers and advertising opportunities.

**YellowJet-Taxi** is available as 7.5 m or 9.0 m.

**YellowJet-Taxi** can be operated by one person, reducing crew costs.

From £51,000 + VAT for the 7.5 m with 150 hp VW Tdi marine engine and water jet propulsion.
